

<How to secure a role as a Business Analyst>

Register at tritekconsulting.co.uk

Go to our website and register for one of our events. You can try out both project management and business analysis courses.

Team activities

Tritek will place you in a group with other trainees. Teams will be composed of project managers, PMO analysts and business analysts. Group activities will commence once you have been given access to the Tritek portal

Work on projects

To earn practical work experience, you will work alongside your team members to analyse and execute projects. Team meetings, project reports and daily reporting activities will all be utilised

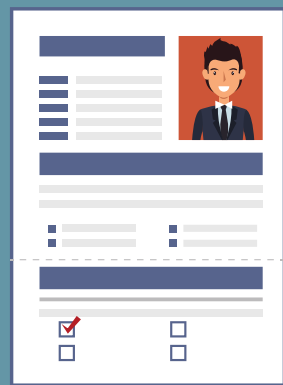

Learn Business Analysis tools

Tritek will schedule weekly tutorial sessions where you will learn practical tools and gain insight into how business analysts operate in the work environment. Once you start on your project, you'll use industry standard software to coordinate with stakeholders, analysts and developers

Mentorship Program

Yes, it's natural to feel clueless, but a lot in business analysis works by learning on the fly. Tritek will assign a mentor to help you understand task assignments and report writing

Get your CV ready

Once you have completed a project successfully, one of our mentors will aid you in putting your CV together and organise interview practice sessions with you.

Key Skills of a Business Analyst

- Analytical
- Great communicator
- Ability to think out of the box
- Problem-solving skills
- Critical thinker
- Documentation skills
- Negotiation skills

<Success Stories>

- Many of our trainees have successfully secured life-changing roles in either contracting or permanent roles. Tritek will provide references for trainees who have completed a project during their training
