SUCCESS

STORIES BY SEPTEMBER

Since graduating from Tritex over a year ago I have been extremely busy and extremely vigilant about acquiring knowledge and bringing my best self to the table.

I secured a role as a Scrum Master contracting £550 a day. I have sustained my contract for one year performing every day as if it was my last, adding value in which ever avenue I could. I experienced highs and lows and really tough times, however I stayed focused and never deterred from my goal. So when I felt I was ready to finally make a move I applied for an impossible Role As the head of department at an investment bank. I literally just said to myself "let's see what happens".

After multiple gruesome interviews and negotiations about pricing I finally landed the position of a lifetime at £100,000 a year!! it also Included all types of glorious benefits. My journey is just starting as my aim is to check back in a few years standing in front of you as an Executive.

A huge well done to Linda on securing a role as an agile coach, earning £100,000 per annum

SUCCESS STORIES

Since our creation, Tritek has successfully created over 200 success stories. We have candidates secure roles every month.

PROJECT MANAGER

I joined Tritek after I realised I wanted to take control of my career. I was skeptical at first but after speaking to Mama Hawk, I decided I had nothing to lose. She gave me the tools I needed and due to my knowledge from working on previous projects with Tritek, I finally led a major project at my current job role which has now set me up for the role I've been promoted to on a permanent basis. I am now on track for a £500 a day role and I believe I will earn more once all my exams have been concluded.

PMO ANALYST

I just want to say a big thank you to Tritek...especially Mojisola, who was very helpful in prepping me for this role. I got my first role as an IT PMO Analyst last year June after I was introduced to Shola and Tritek. Had to come back again because of the open door policy to help and assist people move to the next level. I want to encourage everyone, if I can do it, you can also achieve success. Make use of the knowledge being shared at Tritek and also build yourself too. Best of luck to everyone in 2018".

**“Took the step,
now I earn £400 a day “**

BUSINESS ANALYST

Right from the beginning, Adeshola and Tritek team has shown tremendous support from the mentoring sessions, interview prep, and the project experiences. However, I still had to put so much work by watching videos, and reading articles upon articles online. The good news is, whenever I needed help in understanding some difficult technical aspects, mentors were available to put me through. After my third BA interview, I finally got what I needed at a well-established organisation".

PMO ANALYST

I just want to say a big thank you to Tritek...especially Mojisola, who was very helpful in prepping me for this role. I got my first role as an IT PMO Analyst last year June after I was introduced to Shola and Tritek. Had to come back again because of the open door policy to help and assist people move to the next level. I want to encourage everyone, if I can do it, you can also achieve success. Make use of the knowledge being shared at Tritek and also build yourself too. Best of luck to everyone in 2018".
